COMPOSITION / MATERIAL

· Iron powder, water, vermiculite, activated charcoal and salt.

LIFESPAN

Single use

Autonomy of 8 hours per unit

USE / CARE INSTRUCTIONS & ADVICES

- Tear the package at the “open here” location and remove the foot warmer. Thanks to its individual packaging, you can use this foot-warmer singly instead of in pairs.
- Remove the 2 adhesive protection sheets, then glue the adhesive face either on the foot or shoe side. The foot-warmer reacts to the air which is why it may take a few minutes to give off noticeable warmth
- Do not glue this foot-warmer directly to the skin and only use it with socks or stockings
- After a single use, dispose of the foot warmer in a trash bin once it has cooled.
- Comply with the use by date on the package.
- The body warmer can provide at the opening a warmth of 45°C. This temperature can seem hot depending on personal sensitivity
- In case of excessive use, the body warmer may cause burns or skin irritations
- Not suitable for medical use and must not be used in case of swollen, hurt, with forstbite, or sensitive skin, or in case of gaping wound.
- Despite the small thickness, it can cause an inconvenience in narrow shoes
- Not suitable for children under 6
- Do not use during sleep
- Do not try to reactivate the body warmer by microwaving it or putting it in the oven.
- If the warmth becomes unpleasant or if you see any dermal reaction, burns or swelling, after or during the use, stop using it.
- Do not pierce, cut and avoid every contact with eyes, mouth, or skin. Inhalation of the contents may cause irritation of the respiratory tract. Seek for medical attention if necessary.

SHIPPING AND STORAGE INSTRUCTIONS

- Store in a cool and dry location
