USE / CARE INSTRUCTIONS & ADVICES

- Tear the package at the "open here" location and remove the hand warmer.
- Thanks to its individual packaging, you can use this hand warmer singly instead of in pairs.
- The hand warmer reacts to the air which is why it may take a few minutes to give off noticeable warmth
- Do not stick this hand warmer directly to the skin
- After a single use, place the hand warmer in the trash, after it has cooled down
- Comply with the use by date on the package
- The hand warmer gives off heat of up to 45°C when the package is opened. This temperature may feel warm depending on personal sensitivity.
- If used excessively, this hand warmer can cause superficial burns and skin irritation.
- Not suitable for medical use and should not be used on swollen, injured, frostbitten or sensitive skin or open wounds
- Despite a thin thickness, this extra thickness can cause discomfort
- Not suitable for children under 6
- Do not use during sleep
- Do not try to re-activate the hand warmer by heating it in the microwave or the oven
- If the heat becomes unpleasant, or if you notice any dermal reaction, burns or swellings, after or while using the hand warmer, do not use it again.

SHIPPING AND STORAGE INSTRUCTIONS

- Do not pierce, or cut this hand warmer, and avoid every contact with the eyes, mouth, or skin. Content inhalation may cause respiratory tracts irritations. See a doctor if necessary.
- Store in a cool and dry location
