INSTRUCTIONS & ADVICES

- Tear the package at the “open here” location and remove the warmer.
- The body-warmer reacts to the air which is why it may take a few minutes to give off noticeable warmth
- Thick under-garments may reduce heat transfer
- Do not glue the body warmer directly to the skin
- After a single use, dispose of the body warmer in a trash bin once it has cooled down
- Comply with the use by date on the package
- The body warmer can provide at the opening a warmth of 63°C. This temperature can seem hot depending on personal sensitivity
- In case of excessive use, the body warmer may cause burns or skin irritations
- Not suitable for medical use and must not be used in case of swollen, hurt, with forstbite, or sensitive skin, or in case of gaping wound.
- Not suitable for children under 6
- Do not use during sleep
- Do not try to reactivate the body warmer by microwaving it or putting it in the oven.
- If the warmth becomes unpleasant or if you see any dermal reaction, burns or swelling, after or during the use, stop using it.
- Do not pierce, cut and avoid every contact with eyes, mouth, or skin. Inhalation of the contents may cause irritation of the respiratory tract. Seek for medical attention if necessary.

SHIPPING AND STORAGE INSTRUCTIONS

- Store in a cool and dry location
