Tear
Puncture
Cut ISO

: 4 / 4
: 1 / 5
: 3 / 4
: 4 / 4
: X

EN 420+A1 (2009) : General requirements

Dexterity : 3 / 5

Levels reached are for the palm only.

For gloves with two or more layers the overall classification does not necessarily reflect the performance of the outermost layer.

Levels of performances are obtained with tests executed in environment conditions defined in the standards.

Thus, each use in new conditions are the concern of user's responsibility.

LIMIT OF USE : Protective glove for handling in dry environment

These gloves have got a tensile strength and must not be used when there is a risk of snapping up by machines in movement.

This glove shall not be in contact with fire.

This model does not contain any substances at levels that are known to, or suspected to, adversely affect user hygiene or health.

CATEGORY PPE II

STORAGE & MAINTENANCE INSTRUCTIONS: Keep in the original packaging, normal temperature and moisture, opened and ventilated room. Clean on surface with a wet rag. Dry to room temperature.

After each use check that PPE does not have any tear, hole, or dirt on the natural leather which could lead to less protection and properties of the item. If damaged the glove must be thrown on scrapheap.

Recycling under users responsibility. We do not guarantee the recycled products levels of performance
