

INFORMATIONS & USING INSTRUCTIONS

TYRER

Article code 2118

DESCRIPTION : Natural cowhide leather in palm, wrapover forefinger, and fingertips, blue canvas on the back with elastic tensionner, blue binding

FIELD OF USE : Protective glove for light handling, assembly in dry environment against mechanical risks.

Ideal glove for general handling, mechanical constructions, building and construction works like cabling works, transport and logistics, maintenance...*

*Examples of uses given as a guide, it is up to the user to check whether the product is suitable for the intended use or not

SIZES : 7-8-9-10-11

6 ☐7 ☒8 ☒9 ☒10 ☒11 ☒12 ☐13 ☐**MARKING**

This item complies to the Regulation 2016/425 requirements.

It has been subjected to the **UE type certificate n° 0075/2697/162/05/20/1487** issued by **CTC - (n°0075) – 4, rue Hermann Frenkel - 69367 Lyon cedex 07 - France**

STANDARDS REFERENCES

Properties according to the European standards EN 420:2003+A1:2009, EN 388:2016

A high level shows a good protection. (0 = level 1 not reached; X = not tested).

EN 388:2016 : Mechanical Risks

Abrasion : 2 /4

Cut *couptest* : 1 /5

Tear : 2 /4

Puncture : 2 /4

Cut TDM EN ISO 13997 : X /A-F

**EN 420:2003+A1:2009 : General requirements**

Dexterity : 5 /5

Levels reached are for the palm only.

Levels of performances are obtained with tests executed in environment conditions defined in the standards.

Thus, each use in new conditions are the concern of user's responsibility.

LIMITS OF USE :

These gloves have got a tensile strength and must not be used when there is a risk of snapping up by machines in movement.

This glove shall not be in contact with fire and should not be used to handle objects with temperatures above 50 °C.

This model does not contain any substances at levels that are known to, or suspected to, adversely affect user hygiene or health.

This glove does not protect the risks not mentioned in this document.

CATEGORY PPE II**STORAGE & MAINTENANCE INSTRUCTIONS :**

Keep in the original packaging, normal temperature and moisture, opened and ventilated room. Clean on surface with a wet rag. Dry to room temperature.

Observe the rules of hygiene and after each use check that PPE does not have any tear, hole, or dirt on the glove which could lead to less protection and properties of the item. If damaged the glove must be thrown on scrapheap.

The design performance can not be significantly affected by ageing when stored in appropriate conditions (humidity, temperature, clean, ventilated, light).

Recycling under users' responsibility. We do not guarantee the recycled products levels of performances.

Read the information and using instructions before use and keep it in order to be able to refer to them at any time.
